

sgfleet Logbook App

The **sgfleet** Logbook App is a tool that simplifies record keeping requirements of vehicles used for business purposes

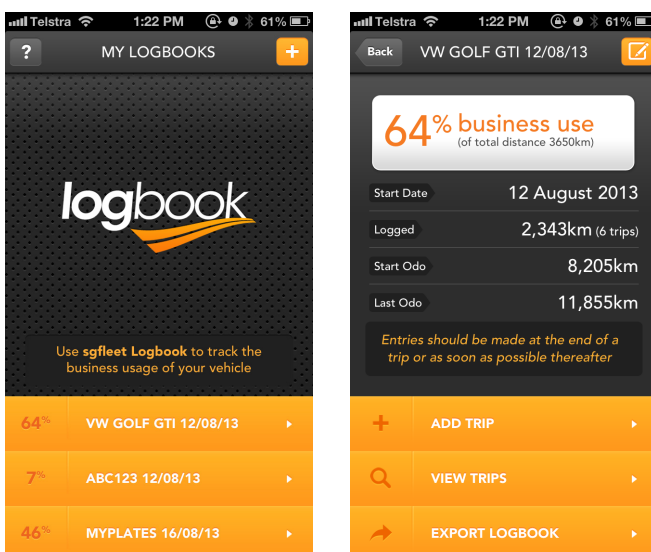

This system has been designed to capture business trips and their purpose via a simple app.

The data from the completed log can be emailed directly to an employer or tax agent for record keeping and compliance purposes.

To manage trip data more effectively or use the Operating Cost Method for calculating FBT, the **sgfleet** Logbook App is a no cost, user-friendly solution.

The **sgfleet** Logbook App

- ✓ Captures trip dates, odometer readings, kilometres travelled and trip purposes in line with ATO requirements
- ✓ Allows continual monitoring of business kms throughout the year
- ✓ Will eliminate the need for keeping paper based logbooks
- ✓ Allows the user to measure a continuous 12 week period of data
- ✓ Allows for multiple logbooks to be completed during the year should circumstances change such as a variation of business use
- ✓ Data summary can be exported in CSV format
- ✓ Convenient to use so better records can be maintained which may ultimately help to maximise tax benefits and savings

For more information on the **sgfleet** Logbook App, contact **sgfleet** on **1300 138 235** or visit **www.sgfleet.com**
